

HUNTSVILLE SCHOOL DISTRICT

Huntsville Public Schools

AHERA ANNUAL NOTICE

TO: Parents, Guardians, and School Employees

FROM: Harry Spurlock, Transportation, Maintenance, and Custodian Director

Asbestos Management Plan 2016-2017 School Year

This notice is being issued for informational purposes. The Huntsville School District meets or exceeds both National and State regulations that relate to asbestos-containing building materials (ACBM).

An inspection for building materials that contain asbestos has been completed, maintained, and updated for all buildings owned, leased or otherwise occupied by the Huntsville School District. A licensed firm and certified inspector conducted this inspection and an accredited laboratory evaluated the material samples. Building materials containing more than one percent (1%) asbestos have been identified and made part of the Asbestos Management Plan.

A complete Asbestos Management Plan for the school district is on file at the District Administration Office located at 570 West Main Street. A copy is also available for each individual school at the respective school's office.

We will continue to notify the public at least once each year on the status of the Asbestos Management Plan. As necessary, we will provide for additional inspections, continue normal surveillance practices, and assess for potential disturbance of asbestos building materials prior to any response actions or remodel work is conducted. Every precaution will be used to protect the well being of students and employees of the Huntsville School District.

Harry Spurlock
Transportation, Maintenance, and Custodial Director
